

License agreement

By using the software, you agree to be bound by the terms of this license. If you have any questions about the terms below, please contact FlippyScripts.com for clarification.

All the Flippy products including Flippy FunBox are allowed to use in unlimited domains for as long as you want. You are also allowed to sell the sites you made with Flippy products. You can call this “owned license” or “developer license”.

However you’re not allowed to sell the product its self (no resale rights). If you would like to earn money selling our products you can do so by joining our affiliate program.

Updates and support

When you buy a Flippy product you will receive free updates and support for one year. If you need support and upgrade more than one year, you can simply buy one of our service packages (this include free updates for the time period specified in the service package you brought from us)

Note: We do not provide support or upgrades for the sites you sell which include a Flippy product. When you sell sites that include our product or products, it is your responsibility to support them or supply them with upgrades.

01. Requirements

- MySQL (version 5 or higher)
- MySQLi extension
- PHP (Min: version 5 or higher, Rec: version 5.3 or higher)
- Apache Mod_Rewrite Enabled
- GD Image library
- cURL Enabled

02. Installation

Installation is very simple. All you need to do is edit one PHP file and import the SQL dump.

Step 1: Create a MySQL database and a MySQL user (with full permissions).

Step 2: Extract flippy_funbox_1.0.0.zip file

Step 3: Open Flippy FunBox\ftp\new installation\db.php with your favorite text editor.

Step 4: Edit your MySQL database information and save.

Step 5: Import/execute the SQL file located in Flippy FunBox\database.

Step 6: Open Flippy FunBox\ftp\new installation folder and upload the entire content to your web server.

That's it you done installing the script.

03. Changing Admin Username and Password

Now that you're done with the installation it's time for you to change default username and password for the admin control panel.

Step 1: Point your browser to <http://www.yoursite.ext/admincp>

Step 2: Login using default username: admin and default password: admin

Step 3: Navigate to "Admin" tab using the main navigation bar.

Step 4: Make the desired changes.

04. Site Settings

By using site settings you can add/update site settings.

Step 1: Navigate to "Settings" using the navigation menu.

Step 2: Follow the steps below to configure your site.

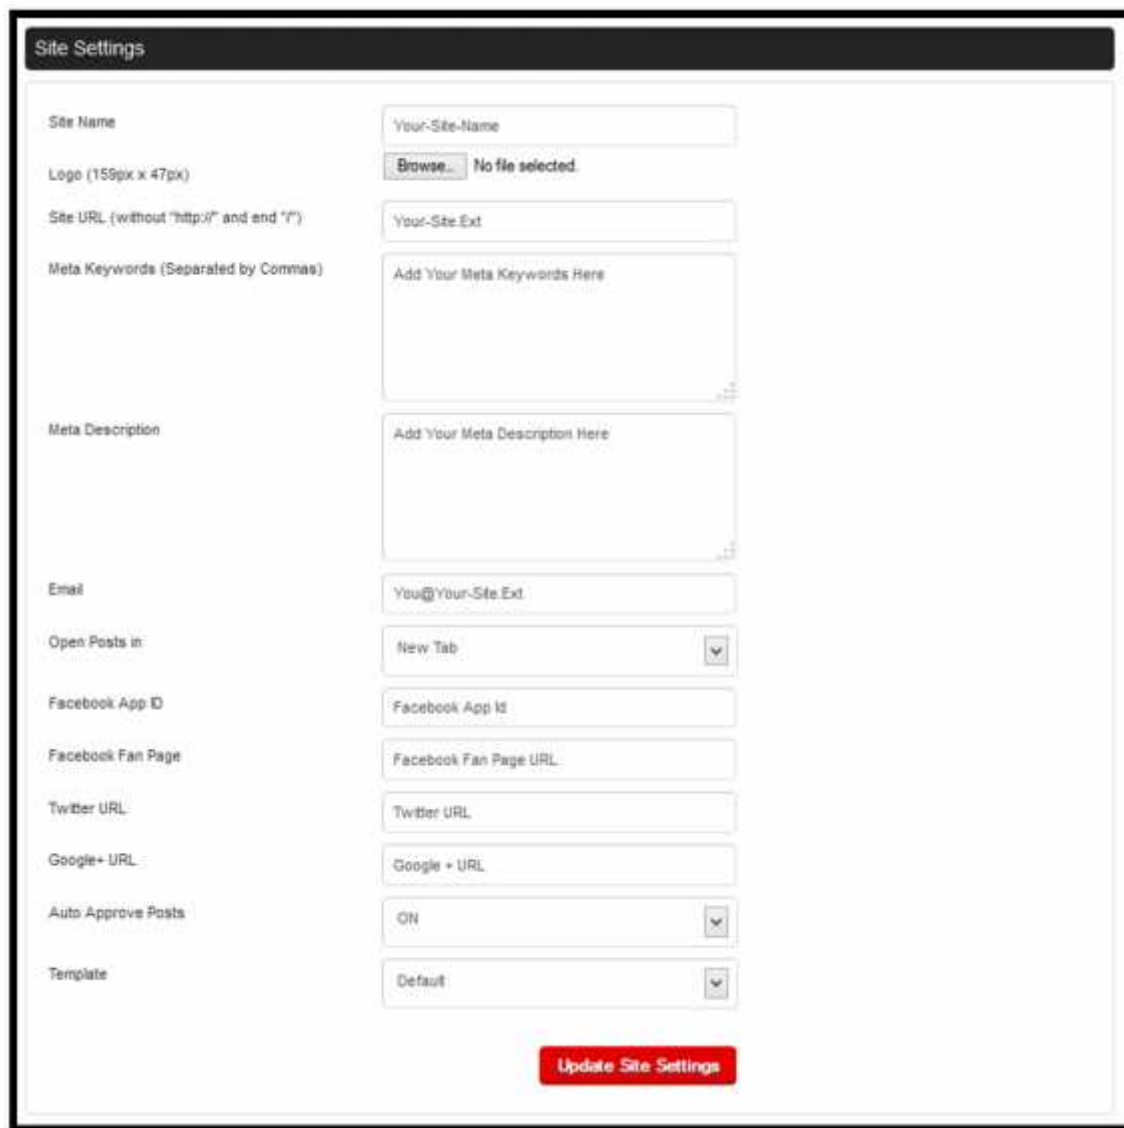

- Site Name – Enter your website name here
- Logo – Upload your site logo here (Please use a .PNG file 159px × 47px)
- Site URL – Enter your website URL (Without "http://" and end "/")
- Meta Keywords – Add your Meta keywords here.
- Meta Description – Add your Meta description here.
- Email – Your email address where users can contact you. This will be used in your contact us form.
- Open Posts in– Select whether you want to open the posts in a new tab or in the same window.
- Facebook App ID – See the next step (05) to learn how to setup your Facebook App ID
- Facebook Fan Page – Your Facebook fan page URL
- Twitter URL – Your twitter URL
- Google+ URL – Your google+ URL
- Auto Approve Posts - If you like all your posts to automatically approve upon submission keep this setting "ON".

- Template – Chose site template.

Important:

Please make sure to add site URL without adding "http://" and without the end "/"

Ex: Correct way: Top level domain - www.your-site.ext or Sub domain - yoursubdomain.yoursite.ext

The screenshot shows a 'Site Settings' form with the following fields and options:

- Site Name:** Text input field with placeholder 'Your-Site-Name'.
- Logo (159px x 47px):** Includes a 'Browse...' button and the text 'No file selected'.
- Site URL (without "http://" and end "/"):** Text input field with placeholder 'Your-Site-Ext'.
- Meta Keywords (Separated by Commas):** Text area with placeholder 'Add Your Meta Keywords Here'.
- Meta Description:** Text area with placeholder 'Add Your Meta Description Here'.
- Email:** Text input field with placeholder 'You@Your-Site-Ext'.
- Open Posts in:** Dropdown menu with 'New Tab' selected.
- Facebook App ID:** Text input field with placeholder 'Facebook App Id'.
- Facebook Fan Page:** Text input field with placeholder 'Facebook Fan Page URL'.
- Twitter URL:** Text input field with placeholder 'Twitter URL'.
- Google+ URL:** Text input field with placeholder 'Google + URL'.
- Auto Approve Posts:** Dropdown menu with 'ON' selected.
- Template:** Dropdown menu with 'Default' selected.

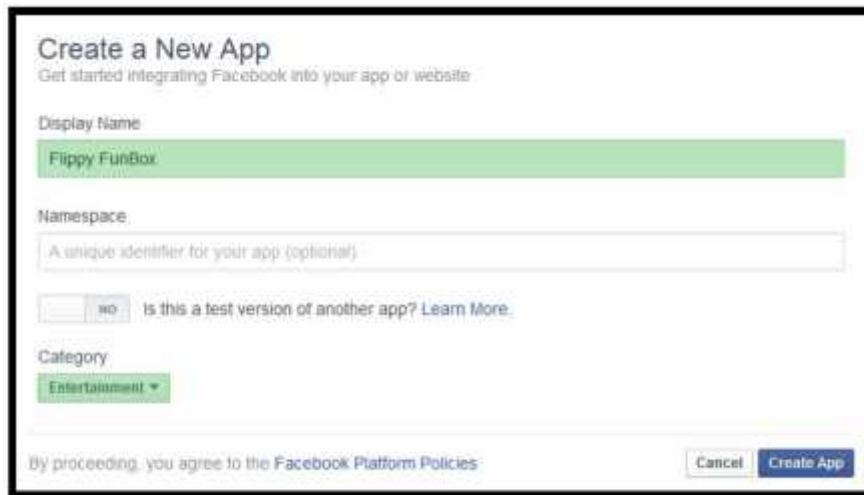

A red 'Update Site Settings' button is located at the bottom right of the form.

05. Setting up Your Facebook App ID

Step 1: Point your browser to <http://developers.facebook.com/setup/>

Step 2: Login to Facebook using your Facebook account information.

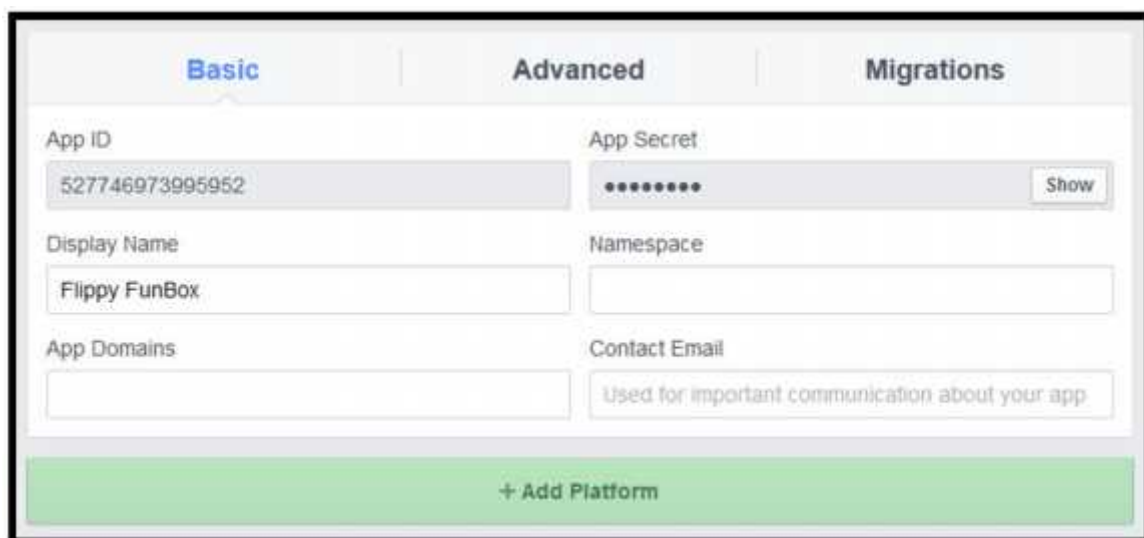

Step 3: Navigate to “Apps-> Create a New App” and fill out necessary information in the popup window.

The screenshot shows the 'Create a New App' form. The title is 'Create a New App' with a subtitle 'Get started integrating Facebook into your app or website'. The form has several fields: 'Display Name' with the value 'Flippy FunBox', 'Namespace' with a placeholder 'A unique identifier for your app (optional)', a checkbox for 'Is this a test version of another app?' with the value 'no', and a 'Category' dropdown menu with 'Entertainment' selected. At the bottom, there is a link to 'Facebook Platform Policies', a 'Cancel' button, and a 'Create App' button.

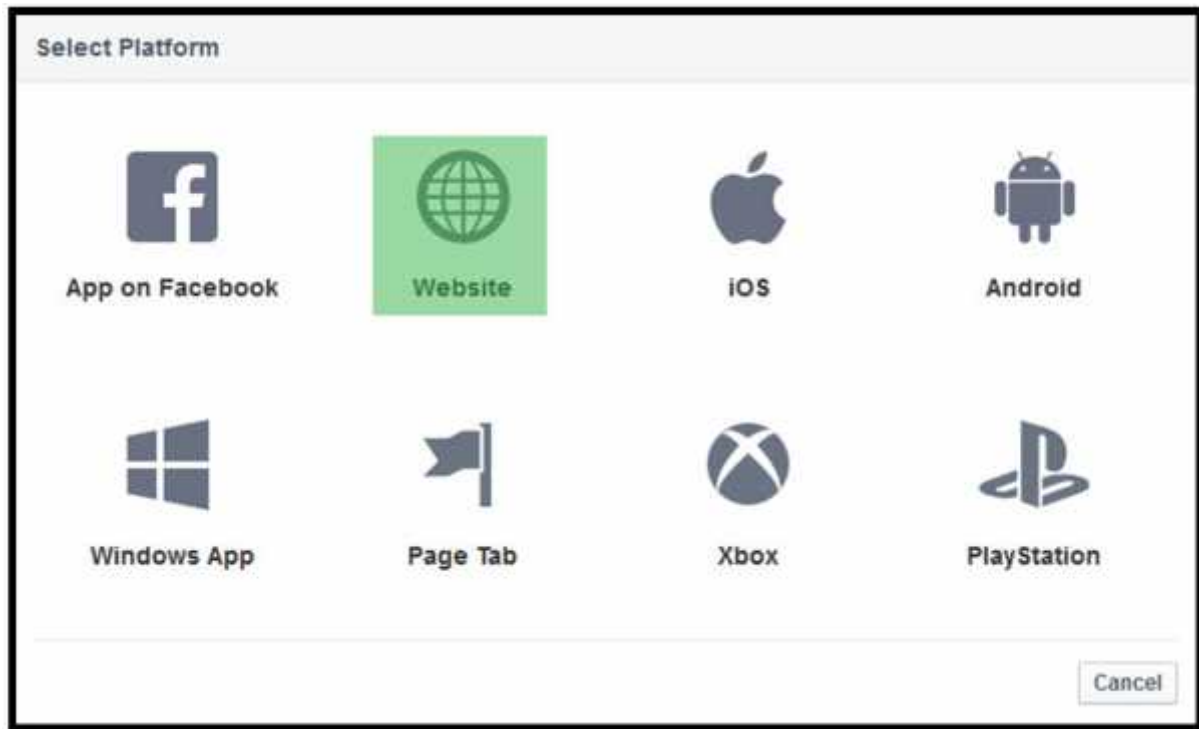

Step 3: Enter the captcha code and submit.

Step 4: Navigate to “Settings” from left side menu and click “+ Add Platform”

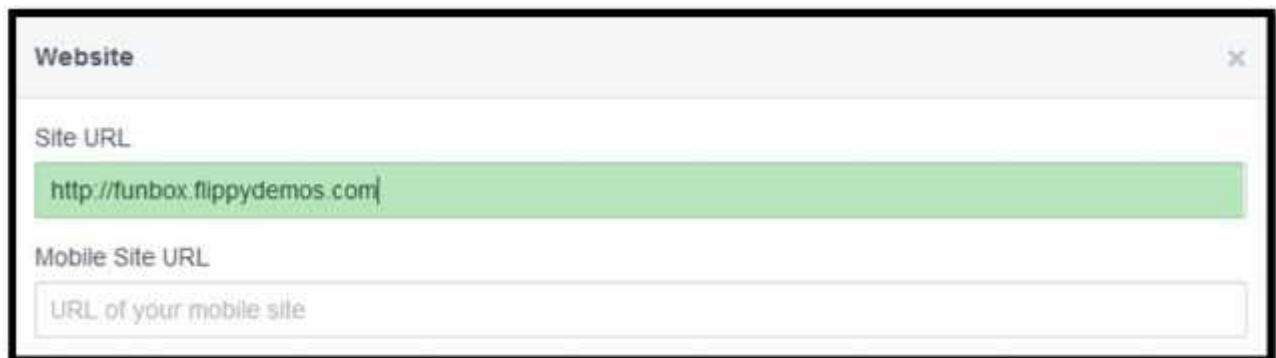

The screenshot shows the 'Settings' page for a Facebook app. The page has three tabs: 'Basic', 'Advanced', and 'Migrations'. The 'Basic' tab is selected. The form contains several fields: 'App ID' with the value '527746973995952', 'App Secret' with a masked value and a 'Show' button, 'Display Name' with the value 'Flippy FunBox', 'Namespace' (empty), 'App Domains' (empty), and 'Contact Email' with a placeholder 'Used for important communication about your app'. At the bottom, there is a green button labeled '+ Add Platform'.

Step 5: Click website on the popup window.

Step 5: Fill out the “Site URL” field in the website section and save changes.

That's it. Now you can use the App ID in your website.

06. Dashboard

By navigating to "Dashboard" you can get a quick view of total pictures, total videos, top 10 latest submits and more.

07. Add / Manage Categories

Important:

Please make sure to add categories before you make the site public.

Add Categories:

Step 1: Navigate to "Manage -> Add Categories" from the navigation menu.

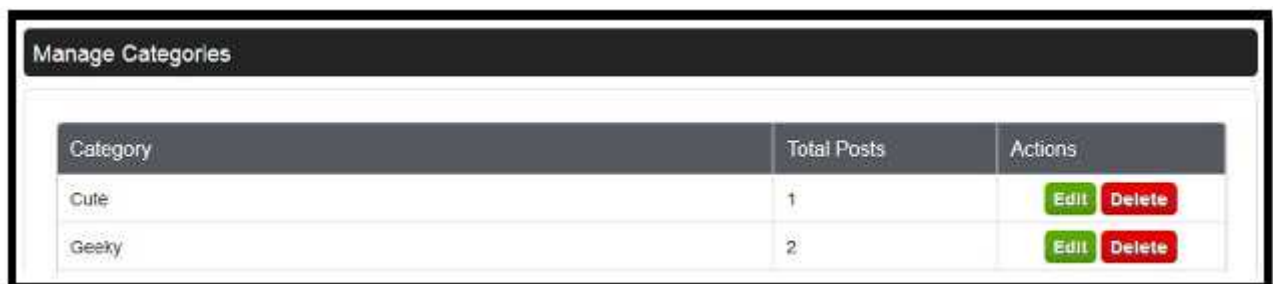

Step 2: Enter desired category name and category description then click "Save Category" button.

Step Manage Categories:

Step 1: Navigate to "Manage -> Manage Categories" from the navigation menu.

Step 2: Use "Edit" or "Delete" buttons to make the desired changes.

Category	Total Posts	Actions
Cute	1	Edit Delete
Geeky	2	Edit Delete

08. Manage Pending Pictures/Videos

Note: This option only required if you're "Auto Approve Posts" settings set to "OFF" in site settings.
